Antibiotics -Medication

Synergy Of POWER EASE VALUE Against Infections

UNI-Z Azithromycin 250MG & 500MG

- ❖ Excellent Choice in Respiratory, Skin & Gynecological infections.
- ❖ Exceptional compliance with once-daily use and dosage flexibility.
- ❖ Outstanding Quality and superlative patient access

APEX

**PERFECT INFECTION
KNOCK OUT**

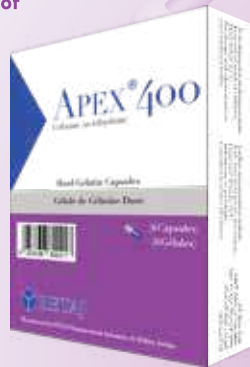

APEX

is the drug of choice to eradicate Gram -ve bacteria in GITI, UTI and RTI while ensuring high convenience once daily dose for adult patients.

- ▶ APEX® has an extended spectrum against Gram -ve bacteria especially members of the Enterobacteriaceae.
- ▶ APEX® is the treatment of choice for oral outpatient therapy against a variety of Gram-ve organisms in case of uncomplicated UTI.
- ▶ APEX® offers longest half-life period among all oral CEPHALOSPORIN.
- ▶ APEX® offers excellent clinical and bacteriological cure rate in GIT, UTI & RTI.
- ▶ High convenience & compliance with drug administration due to once daily dose(longest half-life period among all oral Cephalosporin).
- ▶ The most affordable price in the market.

DOSES

Adults, Adolescents and Children weighing more than 45 kg
Recommended dose is One Capsule 400 mg once daily.

Cefixime 100MG/5ML Suspension 60ML

- ▶ APEX is the treatment of choice for oral outpatient therapy against a variety of Gram-ve organisms in case of uncomplicated UTI.
- ▶ APEX has an extended spectrum against Gram-ve Bacteria especially members of the Enterobacteriaceae.
- ▶ APEX offers longest half-life period among all oral CEPHALOSPORIN.
- ▶ APEX offers excellent clinic and bacteriological cure rate in GIT, UTI & RTI.
- ▶ High convenience & Compliance with drug administration due to once daily dose(longest half-life period among all oral Cephalosporin).
- ▶ The most affordable price in the market.

Broad Spectrum Antibiotic

ICONIR[®]

is the 1st line antibacterial that highly concentrates and effectively eradicates RTIs while ensuring high cure rate with short course duration and ultimate compliance for infant and children patients.

Cefdinir 125MG/5ML Suspension 80ML & 40ML

- ❖ ICONIR has an extended spectrum against Gram +ve and Gram -ve bacteria.
- ❖ ICONIR offers Low MIC90 than other CEPHALOSPORIN.
- ❖ ICONIR offers excellent clinical and bacteriological cure rate in URTI & LRTI.
- ❖ High convenience & compliance with drug administration due to once daily dose (longest half-life period comparing to oral AMOX/CLAV).
- ❖ ICONIR represents the ultimate compliance in pediatric usage in terms of taste and smell comparing oral antibiotics.
- ❖ ICONIR has excellent clinical and bacteriological cure rate versus AMOX/CLAV.
- ❖ The most affordable price in the market.

Doses

Children (6 Months and Older)

The recommended dose is 14 mg/kg/day of the suspension up to a maximum of 600 mg per day.

This may be administered as a single daily dose or may be given in two divided doses for 5 to 10 days.

Twice daily in pneumonia and SSTI

Cholesterol - Medication

Super Statin... Super Protection...

ROZOVAS

Rosuvastatin 5 mg, 10 mg, 20 mg & 40 mg Tab.

In patients with ASCVD risk

Rosuvastatin 5mg, 10mg, 20mg, 40mg Tablets

Rozovas shows a powerful impact on key lipid parameters across the dose range

Significantly reduces
Non HDL-C Levels (%)

Significantly improves
HDL-C Levels (%)

Significantly reduces
major cardiovascular events

Significantly attains
NCEP - LDL Cholesterol goal

Best choice for Cholesterol Treatment

Super Statin... Super Protection...

ROZOVAS

In patients with ASCVD risk

Rosuvastatin 5mg, 10mg, 20mg, 40mg Tablets

- ▶ Powerful impact on the key lipid parameters across the dosage range.
- ▶ Documented reductions in cardiovascular mortality and morbidity.
- ▶ Improves lipid parameters for Type 11 diabetic patients
- ▶ Switching from Atorvastatin to Rosuvastatin was associated with a significant decrease in LDL-C among high-risk patients.
- ▶ Achieves remarkable coronary plaque regression in patients with established CHD.
- ▶ Has an excellent adherence rate.

Dosage
Once Daily

Pain - Management

Etoixib

(Etoricoxib 60MG, 90MG, 120MG Tablets)

Single dose oral etoricoxib for acute postoperative pain in adults

Rachel Clarke, Sheema Derry, & Andrew Moore. Authors' declarations of interest
Version published: 08 May 2014. Version history
<https://doi.org/10.1002/14651858.CD004205.pub4>

Conclusion:

Single-dose oral etoricoxib 120mg produces high levels of good quality pain relief after surgery

Treatment of chronic low back pain with etoricoxib, a new cyclo-oxygenase-2 selective inhibitor: improvement in pain and disability– a randomized, placebo-controlled, 3 months trial.

Conclusion:

Etoricoxib (60/90mg) given once daily provided significant relief of symptoms, disability associated with chronic LBP that was observed 1 week after initiating therapy, was maximal at 4 weeks, and was maintained over 3 months.

Etoxib

(Etoricoxib 60MG, 90MG, 120MG Tablets)

Indications:

- ✓ Low back pain
- ✓ Ankylosing spondylitis
- ✓ Rheumatoid arthritis
- ✓ Osteoarthritis
- ✓ Gout
- ✓ Postoperative pain

FRIGOFAST

SPRAY

Pain melting away

Life without Pain

FRIGOFAST

is rapid pain relief through local anaesthetic effect of cooling in a convenient way.

- ★ Immediate pain controlling effect.
- ★ A convenient spray form.
- ★ Needful as first aid for family and athletes.
- ★ No sticky feeling on the skin.
- ★ Nice fragrance to ensure high acceptance.
- ★ Available in 200 ML & 400 ML packing.
- ★ Italian high quality product.

How to use FRIGOFAST

Spray at the damage area from distance 25cm for 5 sec;
avoiding using on abrasions, wounds and mucous tissue.

Life without Pain

Gastro - Medication

Eziloc
Esomeprazole Magnesium
Delayed Release Capsules

24 hr protection from
Heartburn and Acid Reflux

Best choice for Ulcer Treatment

Eziloc

Esomeprazole Magnesium , Delayed Release, 20MG & 40MG Capsules

Why Eziloc?

- Esomeprazole: PPI proven for its performance
- Higher Potency in acid inhibition than other PPIs
- Maintaining Intra-gastric $\text{pH} \geq 4.0$ for at least 12 hours per day.
- Esomeprazole Capsule has a Faster Onset of action than Esomeprazole tablets
- Esomeprazole has higher healing rates compared with standard dose PPIs at 4 weeks and at 8 weeks
- Antimicrobial property-Esomeprazole 40 mg twice daily improves the H. Pylori eradication

Best choice for GERD Treatment

Nozax

Itopride Hydrochloride 50 mg

**GET RIDE OF
STOMACH TRAFFIC
CONGESTION**

A New Prokinetic for Motility
Disorders Like Dyspepsia,
Gastroparesis, Nausea and Vomiting.

A Potential class of Gastric Motility

Gastric Motility Disorders

Burning sensation in the upper abdomen or chest

Bloating

Lots of burping & early feeling of fullness when eating

Nausea

A new class of Gastropromkinetic

Nozax

! Itopride Hydrochloride 50mg Tablet

- ! First Brand in the market with a new class of Gastroprokinetic.
- ! ITROPRIDE has dual mechanism of action.
- ! ITROPRIDE is more effective than Domperidone and Metoclopramide.
- ! ITOPRIDE is preferred as a prokinetic than metoclopramide because it has higher potency in addition to acceleration of upper and lower GIT motility.
- ! ITOPRIDE has high safety profile (Cardiotoxicity or CNS side effects of Domperidone and Metoclopramide)

A new class for GERD Treatment

Digiwell

**Maintain
Normal
Digestive Function**

Natural Digestive Enzyme

Digiwell Chewable Tablets

Digiwell

- A unique formula of Digezyme®, patented enzyme complex.
- Mixture of Melon Papaya, Alfalfa and Pineapple extract support reduction of digestive disorders that cause bloating, diarrhea and constipation.
- Chewable tablet provides high patient convenience.
- Palatable taste of Pineapple.
- Suitable for Diabetics and Vegans.
- Affordable cost.
- Swiss high quality product.

INDICATIONS

Reliable, balanced and tasty food supplement for improved digestion

- For immediate relief of digestive problems.
- As natural substances needed by the body to help break down and digest food.
- Help to maintain normal digestive function.
- Reduces toxic load generated by undigested food materials.
- Supports digestive health.
- Helps to digest all food groups.
- Supports healthy immune functions.

Sexual Disorders - Medication

D-Late Dapoxetine 30mg & 60mg Tablets

D-Late is the optimal choice to improve the sexual quality of life for adult men, showing complete control over ejaculation at an affordable cost.

D-Late Dapoxetine 30mg & 60mg Tablets

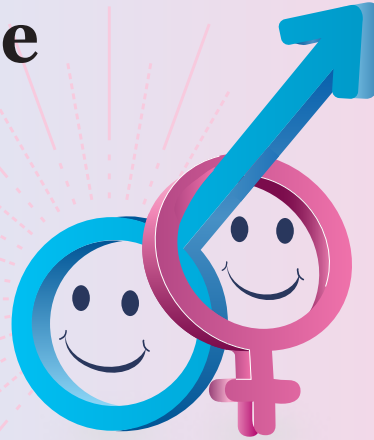

- ▶ The first and approved molecule for premature ejaculation treatment.
- ▶ Effective, tolerable, and safe.
- ▶ DAPOXENTINE is absorbed and eliminated rapidly in the body unlike other (SSRI) as antidepressants.
- ▶ The European Association of Urology guidelines as a treatment option for premature ejaculation.
- ▶ The most affordable price in the market.
- ▶ Small tablet high patient convenience.
- ▶ Concentrations (30/60 mg) allowing dosing flexibility and titration.

Savimale

Tadalafil 5mg and 20mg Tablets

**Imprvove
Their
Satisfaction**

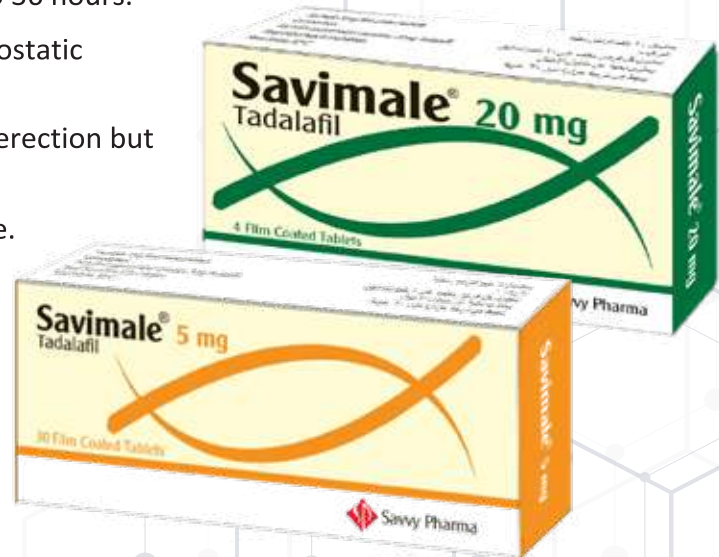

Long-Lasting Up to 36 hrs

Happy Life - Long Life

Savimale[®] Tadalafil 5mg and 20mg Tablets

- Tadalafil is PDH-5 (phosphodiesterase-5) inhibitors as daily dose option.
- Tadalafil has a long duration of action up to 36 hours.
- Tadalafil is the drug of choice for benign prostatic hyperplasia (BPH) patients.
- Tadalafil has been proven to help not only erection but also urination in BPH men.
- Tadalafil is not at all affected by food intake.
- Tadalafil is used for the treatment of Pulmonary Arterial Hypertension.

Allergic Disorders - Medication

No Sedation - No Allergy

Lorius[®] 5mg
Desloratadine

**Keep
Life
Allergy Free..**

LORIUS - Desloratadine 5mg Tablets

Desloratadine is a third-generation antihistamine. It works by blocking the action of histamine to relieve allergy symptoms.

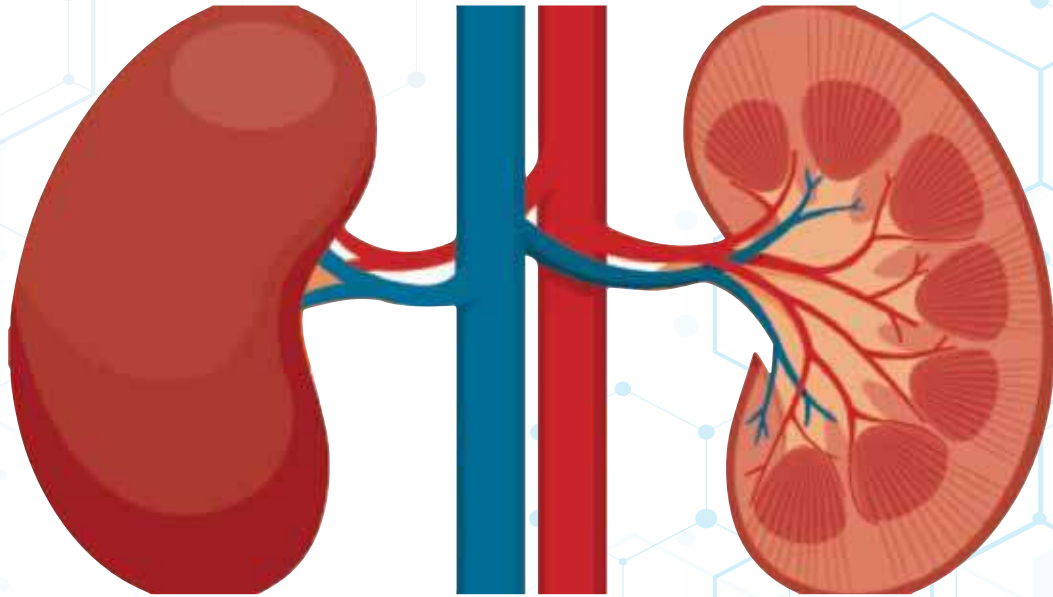

- ▶ Higher H1 Selectivity.
- ▶ Fast-acting histamine receptor blockade work in as fast as 15 min.
- ▶ Less-drowsy vs other antihistamines.
- ▶ Log lasting up to 24 hours relief. Less drowsy
- ▶ The most affordable price in the market.

INDICATIONS:

- Seasonal Allergic Rhinitis
- Itchy, Runny Nose
- Non-Stop Sneezing
- Chronic Idiopathic Urticaria
- Urticaria, hay fever
- Itchy, Watery Eyes

Kidney - Medication

Fast Action - Fast Relief

Sanadcare[®]
Solifenacin Succinate

Better Bladder

CONTROL

The graphic features a dark blue background with a glowing blue molecular structure on the right side. The text and icons are in white and light blue.

Sanadcare - Solifenacin Succinate Tablets

Sanadcare Is the drug of choice for overactive Bladder (OAB) Patients, showing complete relief of all the main symptoms with less side effects and convenient once daily dose with affordable cost.

- ✓ Rapid Onset of action
- ✓ Effective across all the main symptoms, especially urgency with the majority of patients.
- ✓ Solifenacin is more effective than Tolterodine in reducing incontinence and UII episodes.
- ✓ Solifenacin has a lower risk of dry mouth compared with several agents.
- ✓ High convenient dose (Once Daily)
- ✓ The most affordable cost.
- ✓ Small tablet provides high patient convenience.
- ✓ Concentrations (5/10mg) allowing flexibility and titration.

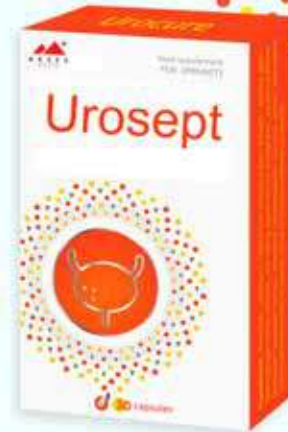

Fast Relief from Kidney Infection

INDICATIONS

- Help in UTIs treatment and prevention.
- Acts as Urinary Tract antiseptic.
- Prevent UTI recurrency.
- **Uncomplicated UTI Treatment (Cystitis):**
Adjunctive therapy with the antibiotic as it does not let bacteria multiply and to adhere to the uroepithelium of the bladder.
- Helps to maintain normal bladder function and immunity.

Zoxta[®]

Febuxostat

Stop **Gout** Patients' Suffering.

A New Beginning in the management of Hyperuricemia
to Keep their uric acid below 6.0 mg/dl

First Choice for High Uric Acid Patients

Uric acid & Hyperuricemia

- ▶ Uric acid is the normal end product of the degradation of purine compounds.
- ▶ Purine are metabolized to uric acid by Xanthine Oxidase enzyme in the liver.
- ▶ The ionized forms of uric acid, predominant in plasma, extracellular fluid and synovial fluid (normal plasma urate 2–6 mg/dl)
- ▶ Plasma is saturated with monosodium urate at a concentration of 6.8 mg/dl.
- ▶ At higher concentrations, plasma is therefore supersaturated, creating the potential for urate crystal precipitation.
- ▶ Major route of disposal is renal excretion.
- ▶ Humans lack the enzyme uricase to break down uric acid into more soluble form.
- ▶ Metabolic disorder underlying gout is Hyperuricemia (high levels of uric acid in blood).

Hyperuricemia can result from:

- ▶ Increased production of uric acid
- ▶ Decreased excretion of uric acid
- ▶ Combination of the two processes.

A new class of Xanthine Oxidase inhibitor.

- ⚡ FEBUXOSTAT is more selective and effective than ALLOPURINOL.
- ⚡ Lesser dose dumping and lesser dose-related toxicity compared with ALLOPURINOL.
- ⚡ High safety profile in mild to moderate renal/hepatic patients.
- ⚡ The most affordable price in the market.

A New Beginning in the management of Hyperuricemia to Keep their uric acid below 6.0 mg/dl

DOSES

The recommended starting dosage of Zoxta is 40 mg once daily.

For patients who do not achieve a serum uric acid (sUA) less than 6 mg/dL after two weeks, the recommended Zoxta dosage is 80 mg once daily.

Zoxta can be taken without regard to food or antacid use.

Zoxta[®]
Febuxostat

L'avance

Vaginal wash

4 in 1

Premium Feminine Intimate Hygiene

The definition of perfection

Clean & Colorful Life

L'avance

Vaginal wash

Incidence of vaginal infections

Vaginal infections are very common, so much that 80% of women suffer from one or more vaginal infections at some point in their life.

Although the types of infections and their symptoms were different, most of patients suffer from mixed infections.

Make More Close with Your Partner

MORF is the powerful deep cleanser in 3 different flavours

- Powerful antiseptic effect of Chlorhexidine
- Local analgesic effect of Menthol to relieve the pain
- Local analgesic effect of Clove with less allergic comparing Benzocaine
- Anti-inflammatory effect of Camphor
- Moisture effect of Glycerin to relieve dryness and protect from infections
- Immediate bactericidal in 20 sec. and bacteriostatic long last for 24 hours
- No mouth stain or discoloration
- Pleasant 3 flavours for more convenience (the only in market)

Your Healthy Life Partner

Save your Generation

folic acid® Revolutionary Folate (4th Generation)

- The first and innovative folate molecule in UAE as a new 4th generation of the folic acid.
- FDA and EFSA approved.
- Highly absorbed, no metabolism needed and highly active comparing to the ordinary folic products.
- Higher bioavailability than ordinary folic acid up to 3 times.
- Highly safety profile.
- Small tablet provides high patient convenience.
- Cost-effective comparing to the 3rd generation.

Doses

- Adult, pregnant and breastfeeding women: 1 Tablet per day

Vitalize Your Health

With

GINESOMEGA™

(Ginseng + Omega 3 + Wheat Germ Oil + Cod Liver Oil
+ Multivitamin + Minerals Softgel Capsule)

O MEGA 3 FISH OIL & COD LIVER OIL

- ▶ Offers Cardio protective benefits
- ▶ Reduces Stress and Anxiety
- ▶ Beneficial in treatment of Inflammatory Diseases

W HEAT GERM OIL

- ▶ Reduces the signs of Ageing like fine lines and Wrinkles
- ▶ Preserves the texture of Skin and Hair

V ITAMIN A,E AND MIXED CAROTENOID

- ▶ Antioxidant triad helps to keep you fit and Healthy

M ICRONUTRIENTS AND MINERALS

- ▶ Plays a central role in Metabolism
- ▶ Maintenance of tissue function

FERTILION - M™

Lycopene + Co-Enzyme Q10 + L-Carnitine +
L-Glutathione + Vitamin E +
Methylcobalamin + Selenium with Micronutrients

Softgel Capsules

To promote and improve male fertility

- Improves sperm morphology and motility
- Prevents spermatozoa from oxidative damage
- Enhances male fertility
- Improves overall reproductive health
- Beneficial for treating oligospermia
- Improves testosterone production

Dosage:

**One softgel capsule to be taken
twice daily after food**

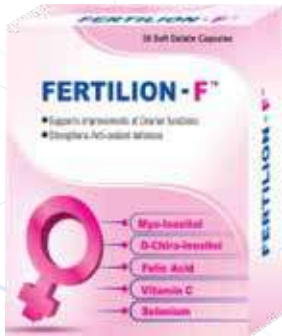

FERTILION-F™

Myo-Inositol + D-Chiro-Inositol + Folic Acid +
Vitamin C + Selenium with Micronutrients

Softgel Capsules

To help improve and enhance fertility in women

Dosage:

One softgel capsule to be taken
twice daily after food

- Promotes Hormonal Balance & Reproductive Wellness
- Promotes fertility and improves conception rate
- Improves progesterone levels
- Maintains a regular menstrual cycle
- Helps to reduce pregnancy loss
- Corrects luteal phase defect
- Reduces fasting insulin levels & homocysteine levels in PCOS

Cartilomega Capsules

Pro-joint Nutrients

- Helps support good health of joints, muscles & bones

CartilOmega helps to

- Rebuild the damaged cartilage
- Restore mobility
- Reduce pain, inflammation & restriction in joint movement
- Check the progression of Osteoarthritis

Comprehensive formula in
SINGLE soft gelatin capsule
provides

Glucosamine Sulphate	500 mg
Chondroitin Sulphate	200 mg
Sodium Hyaluronate	3 mg
Cod liver oil	200 mg
Omega 3	
EPA	60 mg
DHA	40 mg
Vitamin C	20 mg
Vitamin D3	0.75 mcg
Vitamin E	1.8 mg
Vitamin K	11.25 mcg
Elemental Calcium	20 mg
Elemental Magnesium	20 mg
Elemental Zinc	6 mg

Dosage:
One capsule
three times daily with
meals or as directed
by the Physician

Lycopene,¹⁰ Selenium

- Very potent antioxidant
- Lower serum levels of lycopene are associated with increased risk of acute coronary events & stroke

Garlic¹¹

- Reduces cholesterol level, inhibits platelet aggregation, reduces blood pressure & increases antioxidant status

L-Carnitine¹²

- Effective in the management of peripheral arterial disease, heart & cerebral ischemia & congestive heart failure

Alpha Lipoic Acid

- A powerful antioxidant
- Enhances antioxidant activity of Vitamin E & coenzyme Q10

B Vitamins & Folic Acid

- Lowers the level of homocysteine
- Reduces the rate of repeat heart attacks & strokes

Natural Milk - Stage 1,2,3

Important notice:

The World Health Organization (WHO) has recommended that pregnant women and new mothers be informed of the benefits and superiority of breast-feeding – in particular the fact that it provides the best nutrition and protection from illness for babies. Mothers should be given guidance on the preparation for and maintenance of lactation, with special emphasis on the importance of a well-balanced diet both during pregnancy and after delivery. Unnecessary introduction of partial bottle-feeding or other foods and drinks should be discouraged since it will have a negative effect on breast-feeding. Similarly, mothers should be warned of the difficulty of reversing a decision not to breast-feed. Before advising a mother to use an infant formula she should be advised of the social and financial implications of her decision: for example, if the baby is exclusively bottle-fed, more than one can (400g) per week will be needed, so the family circumstances and costs should be kept in mind. Mothers should be reminded that breast-milk is not only the best, but also the most economical food for babies. If a decision to use an infant formula is taken, it is important to give instructions on correct preparation methods, emphasizing that unboiled water, unboiled bottles or incorrect dilution can all lead to illness.

Nutrídar دار الغذاء

Sahha AR is a thickened infant formula that relieves regurgitation due to the presence of **PREGELATINIZED WAXY MAIZE STARCH**.

WHY WAXY MAIZE STARCH?

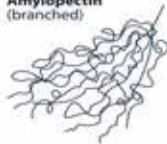

- ✓ Contains amylopectin.
- ✓ Does not cause cramping or bloating effect.
- ✓ Does not interfere in the absorption of minerals.
- ✓ Does not alter the taste of milk.

Native Starch Types

Amylose
(linear)

Amylopectin
(branched)

Amylopectin is a branched starch which is easily gelatinized and yields a viscous and effective paste that retrogrades slowly than the linear starch type amylose.

Sahha AR offers the following benefits:

- ✓ Reduces the need for any medications to relieve the frequency and symptoms of regurgitations.
- ✓ Prevents the occurrence of gastritis.
- ✓ Promotes infant's healthy growth & development despite regurgitation.

Iron
fortified

With
Bifidus

Immature Digestive Systems

Sahha Gentle contains easily digestible nutrients with less need for digestive system enzymes.

- ✓ 100% Whey Protein.
- ✓ Less Lactose.

The 100% Whey protein in **Sahha Gentle** is PARTIALLY HYDROLYZED protein.

Iron
fortified

With
Bifidus

WHY MALTODEXTRIN?

- ✓ Easily digestible carbohydrate.
- ✓ Rapidly absorbed by cells.
- ✓ Relieves diarrheal symptoms (watery stools, cramps, flatulence & bloating).

Sahha LF contains **Bifidus Bacteria** that protects the intestinal membrane against harmful bacteria and thus providing many health benefits including:

- ✓ Strengthening infant's resistance against diarrhea & other gastrointestinal diseases.
- ✓ Extra protection for the infant's digestive system.
