## POLYMESH 3D

.eliminates need for fixation, which saves time and cost  
 Reduced pain for the patients who received Polymesh 3D compared  
 .with received flat mesh

PRODUCT CODE	SIZE/MODEL	UNITS PER BOX

# POLYMESH COMPOSITE

Designed for patient comfort, comfortable healing. Absorbable in 90-120 days. Low-weight polypropylene PGA-PCL mesh with pore size of 2 to 4 mm provides less foreign body reaction and low postoperative adhesion.

PRODUCT CODE	SIZE/ MODEL	UNITS PER BOX

Before Partial Absorption

During Partial Absorption

## **POLYMESH DUAL**

Constructed of double sides with different properties for implantation in intraperitoneal site.Vis-  
ceral side is made of non-adherent silicone which prevents adhesion formation and creates a  
pseudo-peritoneum.Parietal side is made of nonwoven polypropylene for an easier tissue  
fixation and colonization.

## ULTRASONIC SCALPEL SYSTEM

01. Compatible with international mainstream ultrasonic scalpel systems.
02. Minimize adhesions, eschar and smoke
03. Integrate separation, cutting and coagulation to save operation time

## APPLICATION

Suitable for cutting and hemostasis in open and laparoscopic surgery in general surgery, thoracic surgery, gynecology, urology, pediatrics, etc.

### GENERAL SURGERY

Cholecystectomy  
Appendectomy  
Gastric bypass  
Colectomy  
Hernia resection  
Adrenalectomy  
Splenectomy

### UROLOGY/GYNECOLOGY

Thyroidectomy  
Cystectomy  
Nephrectomy  
Hysterectomy  
Myomectomy  
Accessory resection  
Adhesive release

## ULTRASONIC SCALPEL SYSTEM

Generator • Transducer • Scalpel • Foot Switch

### Ultrasonic Scalpel System

Generator. Foot Switch

System's Generator drive transducer handle to the device to a frequency of 55.5KHz, 100-60 microns of longitudinal vibration amplitude, the ultrasonic vibration can under the pressure of the right to have good cutting ability, at the same time this kind of vibration with blood and tissue protein coagulation closed small blood vessels, cutting/stop the bleeding.

### Ultrasonic Scalpel System

Hand piece transducer

- There is no using time limit of the hand piece transducer;
- Piezoelectric ceramic sheets are made of imported materials and are precision assembled to provide stable and effective performance;
- Exclusive high-end signal cable, multi-layer shield and insulation for excellent MC performance;
- The outer casing is made of aerospace alloy aluminum, which has high strength and excellent wear resistance and corrosion resistance;

# DISPOSABLE LAPAROSCOPIC TROCAR

## SPECIFICATIONS

F010105110	Φ 5mm Bladed trocar
F010210110	Φ 10mm Bladed trocar
F010312110	Φ 12mm Bladed trocar
F010403070S	Φ 3mm Optical trocar
F010505110S	Φ 5mm Optical trocar
F010610110S	Φ 10mm Optical trocar
F010712110S	Φ 12mm Optical trocar
F010815110S	Φ 15mm Optical trocar

## PRODUCT FEATURES

- Single use only, avoid cross infection
- Unique design, small trauma, quick recovery
- Thread design, perfect maintain of the veress

# DISPOSABLE BIOPSY NEEDLE

## SPECIFICATIONS

F401212150	φ150×1.2mm
F400712200	φ200×1.2mm
F400812250	φ250×1.2mm

## PRODUCT FEATURES

- Smooth Surface: Less friction, frictionless insertion reduce vessel trauma and pain.
- Needle Tip: Better sharpness in the tip.
- Better Metal Surface: Flaw less surface of cannula.
- Thin Wall: Better inner diameter helps to get better inner diameter of cannula provides more space.

# DISPOSABLE ELECTRODE SURGICAL INSTRUMENT

## SPECIFICATIONS

F000105350	Scissor Curved
F000405350	Scissor Full Insulated
F000305350	Scissor Full Insulated Mini Blade
F001105350	Dissector Maryland
F001305350	Dissector Mixer
F001205350	Dissector Straight
F002505350	Grasper Fenestrated 17mm Double Action
F002605350	Grasper Fenestrated 22mm Double Actionr
F002705350	Grasper Fenestrated 35mm Double Action
F003105350	Grasper Fenestrated 22mm Single Actio
F003205350	Grasper Fenestrated 35mm Single Action
F002105350	Grasper Clinch
F004005350	Grasper Blunt Jaw
F005005350	Grasper Babcock
F003605350	Grasper Allis
F004505350	Grasper Rat-Teeth

# DISPOSABLE RETRIEVAL DEVICE

## SPECIFICATIONS

F020110250	250ml×Φ10
F020210350	350ml×Φ10
F0203101000	800ml×Φ10

## PRODUCT FEATURES

- The bag body of high strength with good biocompatibility is TPU material, Transparent soft bag body
- There are a variety of specifications bag body to choose from
- Meet the demand of different operation
- When the fetch, the automatic tightening of mouth, to prevent overflow
- The operation is simple, The efficiency of safety
- Can prevent cancer to grow and tissue fluid permeability caused by inflammation,
- Reduce the risk of tissue damage

# DISPOSABLE RETRIEVAL DEVICE

## SPECIFICATIONS

F020910250	250ml×Φ10
F021010350	350ml×Φ10
F0211101000	1000m×Φ10
F0217121500	1500ml×Φ12

## PRODUCT FEATURES

- The bag body of high strength with good biocompatibility is TPU material, Transparent soft bag body
- There are a variety of specifications bag body to choose from
- Meet the demand of different operation
- When the fetch, the automatic tightening of mouth, to prevent overflow
- The operation is simple, The efficiency of safety
- Can prevent cancer to grow and tissue fluid permeability caused by inflammation,
- Reduce the risk of tissue damage

# DISPOSABLE RETRIEVAL DEVICE

## SPECIFICATIONS

F021310200N	200ml×Φ10
F021410350N	350ml×Φ10

## PRODUCT FEATURES

- The bag body of high strength with good biocompatibility is Nylon material
- There are a variety of specifications bagbody to choose from
- Meet the demand of different operation
- When the fetch, the automatic tightening of mouth, to prevent overflow
- The operation is simple, The efficiency of safety
- Can prevent cancer to grow and tissue fluid permeability caused by inflammation,
- Reduce the risk of tissue damage

# DISPOSABLE SUCTION & IRRIGATION UNIT

## SPECIFICATIONS

F040105360 | 360mm×Φ5  
F040205430 | 430mm×Φ5

## PRODUCT FEATURES

- Ergonomically designed hand piece can be easily operated by either hand
- Unblocked channel, good flowing performance
- Stainless steel probe with position function, easy to fix and draw out
- Flip designed rear port for easy access inside chamber, can be operated by one hand, quick close and reduce air leakage
- Transparent headpiece, unobstructed visualization
- Resistant structure and reliable quality
- Clear channel, consistent diameter with self-flush function
- Smoke evacuation and filtration, smoke flow rate is adjustable

# DISPOSABLE SUCTION & IRRIGATION UNIT

## SPECIFICATIONS

F040305360 | 360mm×Φ5  
F040405430 | 430mm×Φ5

## PRODUCT FEATURES

- Ergonomically designed hand piece can be easily operated by either hand
- Unblocked channel, good flowing performance
- Stainless steel probe with position function, easy to fix and draw out
- Flip designed rear port for easy access inside chamber, can be operated by one hand, quick close and reduce air leakage
- Resistant structure and reliable quality
- Smoke evacuation and filtration, smoke flow rate is adjustable

# DISPOSABLE VERESS INSUFFLATION NEEDLE

## SPECIFICATIONS

F030121120 | 120mm×Φ2.1  
F030221150 | 150mm×Φ2.1

## PRODUCT FEATURES

- Stainless steel needle with strong polycarbonate handle
- Double warning system confirms proper insertion
- Ergonomic handle for easy controlled insertion

# DISPOSABLE SURGICAL ELECTRODE

## SPECIFICATIONS

F009405330 | 330mm×φ5 | Suction Irrigation L-Hook  
F009505330 | 330mm×φ5 | Suction Irrigation Spatula

## PRODUCT FEATURES

- Provide the precise, controlled coagulation and transection of vessels and tissue
- Fully insulated, 33cm shaft provides safe current containment
- Effective monopolar electrosurgical activation
- Good flowing performance
- Available with Spatula, L Hook

# DISPOSABLE L-HOOK

## SPECIFICATIONS

F009105330 | 330mm×φ5

## PRODUCT FEATURES

- Provide the precise, controlled coagulation and transection of vessels and tissue
- Fully insulated, 33cm shaft provides safe current containment
- Effective monopolar electrosurgical activation
- Available with Spatula, L Hook
